

How to change the display of my trails?

Two options are available to you :

Change the display options in the editor:

- 1) Go to the "settings".
- 2) Select the "display" proposition.
- 3) Once done, go to the editor section.
- 4) Change the different display options.

Change display options when creating a track:

- 1) Go to "create a trail".
- 2) Click on the "display" tab.
- 3) Then change the different display options.
