# How to modify a trail?

To modify,

1) Click on the "edit" tab.

2) Change your draw mode (you must be in manual mode to modify).

3) Modify the trail using the points on the track.

If you want to modify by after,

1) Go to your "dashboard".

2) Click on the trail you want to edit.

3) Display it in a large screen using the arrows in the upper right corner of the hike **.

4) Then click on the "edit" icon 1536741816ic_edit_black_24dp.png.

5) Select a proposal.

6) Modify as you want.

Note: Remember to save your trail after any changes.
