

## How to access the recorder?

- 1) Go to the "map" section of your application 1536587791ic\_public\_white\_24dp.png
- 2) Go to the information area that you can move from left to right to access the different items with a swipe.
- 3) Once under the heading "REC" (trail recorder), press the red icon "recording" \*\* to start a recording.

Note: To access the various data of the recorder throughout your trail, drag it up.
