

How to add photos when registering a hike?

- 1) Once the recording has started,
- 2) Go to the "**REC**" section,
- 3) Then press the "**Camera**" icon. 1536586323ic_add_a_photo_black_24dp.png

Note: Each time you take pictures, a pictogram will appear on your track.

If you want to remove the photo icons from your track during the recording, tap the black "**Point of interest**" icon 1536588007ic_fab_markers_on.png (**A**) at the top left of your screen.

If you want to make them appear again, repeat the operation.
