

## How to take photos during a trail record ?

- 1) Once the recording has started,
- 2) Go to the "**REC**" section,
- 3) Then press the "**Camera**" icon. 

**Note:** Each time you take pictures, a pictogram will appear on your track.

If you want to remove the photo icons from your track during the recording, tap the black "**Point of interest**" icon  at the top left of your screen.

If you want to make them appear again, repeat the operation.
