How to stop a trail's recording?

1)   Press the green "**Stop**" icon at the bottom right-hand corner of your screen.

2)   Be sure to press the "**Save**" tab.

3)   From there, name the trail, decide on the visibility of it, describe it, define an outdoor activity and the difficulty of it.

4)   Finally, press "**Validate**" and your trail is saved!
