

How to print the maps?

You cannot print the maps alone. It is possible to print a map only if a trail is drawn on it, whether it is a trail from the catalog or a created one.

To learn how to print a trail, click on the link: [How to print the trails of the catalog?](#) if you want to print one from the catalog or [how to print my trail?](#) if you want to print the trail you just created.
